HOT LINE

SEWER CLEANING COMPOUND

COMPUESTO PARA LIMPIAR ALCANTARILLAS

Read back panel before using.
KEEP OUT OF REACH OF CHILDREN

SAFETY SECTION

Ingredient Name	CAS #
Sodium Hydroxide	1310-73-2

PART #4001

DANGER...
- SKIN AND EYE IRRITANT
- RESPIRATORY TRACT IRRITANT
- SWALLOWING WILL CAUSE GASTROINTESTINAL IRITATION

UN3085, OXIDIZING, SOLID CORROSIVE, N.O.S. (SODIUM HYDROXIDE, SODIUM NITRATE), 5.1, 8, PG II

PO Box 10207 ~ Reno, Nevada ~ 89510

HOT LINE

DIRECTIONS FOR USE

HOT LINE is for removing obstructions such as grease, tree roots, cloth and various forms of trash from sewer lines and other pipe conduits. Pour **HOT LINE** slowly into the opening nearest to the blockage. Be sure the line has water in it which starts the reaction. Add 20 to 100 pounds of **HOT LINE** depending on the line and its size. Quantity depends on nature and size of obstruction and how close to the line opening. If line does not clear in an hour of two, concentration of **HOT LINE** may be increased but not above about 3 pounds for each 2 gallons of water.

FOR INDUSTRIAL USE ONLY
FIRST AID TREATMENT
Call a Physician Immediately!
WARNING! Contains Caustic Soda

Causes severe burns to skin and eyes. Avoid contact with skin, eyes and clothing. Do not take internally. When handling wear goggles or face shield. In case of contact, immediately flush skin with plenty of water and wash with vinegar; for eyes, flush with water for at least 15 minutes and get medical attention.

EXTERNAL: Flood with water then wash with vinegar. If in eyes, wash with saturated boric acid solution or flood with water.
INTERNAL: Give water with large amounts of diluted vinegar, lemon, or orange juice. Follow with milk or whites of eggs beaten with water. Apply artificial respiration if not breathing. Keep patient warm and quiet.
