

A Pine Forest Reodorant

A walk through a pine forest will be replicated with this amazing new formulation from SUNRISE ENVIRONMENTAL SCIENTIFIC. The addition of reodorizing compounds makes **PINION** an effective odor remover as well as an outstanding mood stimulator. Use **PINION** wherever odors occur. The delicate ambiance created with this outstanding formulation will generate positive commentary.

FEATURES & BENEFITS:

Concentrated- Economical to use.
High saturation threshold- Free rinsing, penetrates.

APPLICATIONS:

Heavy duty elimination of malodorous aromas.

DIRECTIONS:

PINION may be used in concentrated form or diluted as high as 9 to 1 with water. The severity of the odor problem will dictate the dilution percentages. In general use, we have found that a dilution from 3 to 5 parts with water will control most situations. However, you may find that this ratio should be adjusted one way or the other.

General guidelines

Foul odors:	Dilute 1:1 or use straight
General deodorizing:	Dilute between 3 and 5 parts of water to 1 part of product
Daily maintenance:	Dilute between 6 and 9 parts of water to 1 part of product

Mist product into the air with a spray bottle, atomizer or other spray apparatus. Use wide sweeping motions to distribute evenly throughout area. Carpets, draperies and fabrics may be treated with this product. However, always check color fastness in an inconspicuous spot, prior to application.
