

LECTRON

**ADVANCED TECHNOLOGY
SAFETY SOLVENT**

**SOLVENT-BASED
CLEANERS**

LECTRON is **SUNRISE'S** latest product, specifically developed as a cold cleaning solvent, free of chlorinated and fluorinated solvents. It is a non-toxic distillate. **LECTRON** is ideal for general purpose cleaning, removing grease, oil and contaminants from electric motors, generators, gears, starters, engines, metal parts and other mechanical or electrical devices. This product also works extremely well as an integral part of a parts washer cleaning system.

FEATURES & BENEFITS:

Environmentally sound - safe to use, pleasant scent.

APPLICATIONS:

Removal of grease, oil, and tar build-ups.

DIRECTIONS:

DO NOT HEAT. USE COLD. Pretest plastic or painted components in an inconspicuous area before using. For general purpose cleaning, spray on or apply with a rag and wipe off thoroughly, blow dry or allow to air dry. Do not apply **LECTRON** to electric motors while running. Thoroughly clean electric motors and allow to dry completely before restarting. Spray all parts with **LECTRON** (agitate and brush as needed to clean stubborn areas). **LECTRON** is not harmful to the skin, but constant exposure to any solvent will dry the skin.
