

FLUSH OFF

Water Soluble Degreaser

SOLVENT-BASED
CLEANERS

FLUSH OFF is a mixture of emulsifiable solvents and fast action additives. This solution saves man hours by flushing sludge and greasy residue from metal and painted surfaces quickly and safely. **FLUSH OFF** has proved especially valuable to machine repair depots, street and highway departments, industrial plants, factories and school bus garages. **FLUSH OFF** saves maintenance and repair time.

FEATURES & BENEFITS:

Emulsifiable- Rinses with water.

Solvent blend- Attacks all greases and oils.

Blast nozzle- Powerful solvent stream, quickly flushes away grease and grime.

APPLICATIONS:

Fast removal of grease and sludge residue.

DIRECTIONS:

FLUSH OFF is a quick acting cleaner which easily removes grease, dirt and oil deposits from painted surfaces, tools, machinery, automobiles, trucks, tractors and marine engines. Hold can upright, point spray opening at surface to be cleaned and press down on valve. For best results allow **FLUSH OFF** to penetrate for 10 minutes and then flush thoroughly with water. If further cleaning is necessary, repeat application and rinse again with water. Where hard or thick deposits are encountered, remove excess grease, oil, tars or sludge with a putty knife or scraper prior to spraying. Before using on a painted surface make a test by spraying a small inconspicuous area to insure that the paint will not be affected.

PACKAGING AVAILABILITY

Aerosol
PART #1040

QR CODE:

FORMULATION:

This product contains aliphatic solvents, emulsifiers, wetting agents, amide soaps and aromatic solvents.

TARGET ACCOUNTS:

Engine shops, mills, motel maintenance, machine shops, farms, BLM, forest service.

SPECIAL CAUTIONS:

None.
