The contents of this container are under pressure. Do not puncture or incinerate. Do not store in direct sunlight or where temperature exceeds 120°F. Use ventilation adequate to maintain TLV. Avoid prolonged or repeated contact with skin. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. Point tip away from body and eyes before spraying. Do not spray near open flame or ignition source. Avoid contamination of food or potable water. Dispose of empty can in accordance with local regulations. Do not ingest. If skin is contacted, wash off with soap and water. If eyes are contacted, flush 15 minutes with water. See a physician. Consult Safety Data Sheet for additional information.

LIMITED QUANTITY

Ingredients: Mineral Oil 64742-52-5, Aliphatic Petroleum Distillate 64742-89-8, Hydrocarbon Propellant 68-476-86-8

- **MADE ENTIRELY WITH FOOD GRADE INGREDIENTS**
- **PROTECTS, LUBRICATES, PENETRATES**
- **UNIQUE CAN SPRAYS FROM ANY ANGLE**

# SNIPER FG

FOOD GRADE PENETRATING OIL

## SNIPER FG #1110

**SNIPER** has a unique combination of ingredients that markedly reduce surface tension which permits rapid, deep penetration of corroded parts. **SNIPER'S** unique spray head permits spraying from any angle, allowing penetrant to reach areas otherwise inaccessible. **SNIPER** has an affinity to metal which aids penetration. Residual oil film lubricates and provides protection against subsequent corrosion. Penetrates and frees rusty parts such as bolts, nuts, lock mechanisms, speedometers, brake cables, fittings, etc. Helps eliminate the use of cold chisels, torches or saws. **SNIPER** has instant action that will cut rust, dirt, grease and corrosion.

### DIRECTIONS:

#### SHAKE WELL BEFORE USING!!

Spray **SNIPER** on object, saturate rusted or corroded area. Allow **SNIPER** to stand for several minutes. If necessary, tap fitting lightly and in extremely difficult cases of frozen parts re-apply as needed. Do not apply directly to food. This can be used on food processing equipment where there is no contact of the lubricant with food. **Note:** This product contains a solution of saturated aliphatic hydrocarbons. Addition to food not to exceed 1 part per million. The lubricant ingredient is in the code of Federal Regulations of the FDA, in 21 CFR part 178.3570.

### SUGGESTED USES:

- **Bolts and Nuts**
- **Lock Mechanisms**
- **Slides and Rollers**
