PAD & SHAKER PRETREAT

GELLED SILICONE SHAKER PAD LUBRICANT

PRETREAT ALMOHADILLA Y SHAKER

FEATURES:

- **HIGH SILICONE CONTENT**
- **STAYS SLICKER LONGER**
- **EXTENDS THE LIFE OF SHAKER SLINGS**
- **AUTOMATIC AND MANUAL APPLICATIONS**

CAUTION: CONTENTS UNDER PRESSURE. VAPOR MAY BE HARMFUL. READ CAUTIONS ON BACK PANEL BEFORE USING.

KEEP OUT OF REACH OF CHILDREN

PRODUCT #1126

NET WEIGHT: 16 OZ

PAD & SHAKER PRETREAT

PAD & SHAKER PRETREAT is a clear, non-toxic synthetic spray lubricant designed to lubricate and protect rubber tree-shaker slings. This compound deeply penetrates into rubber and leaves a stable broadcast of synthetic lubricant to provide a slippery barrier for reduced friction on the rubber to rubber surface. It prevents heat build-up during the tree shaking operation and prevents bark damage to the tree. This clean, non-toxic formula can be used with confidence to provide solutions to a multitude of lubrication problems associated with valves, pistons, rings, seals, slides, tracks, hinges, gears, etc.

DIRECTIONS: Point trigger toward target area and spray a thin film into the working surface of the shaker sling. As the lubricants impregnate the surface of the rubber, a shiny wet appearance will be maintained. Re-apply approximately once per hour or as conditions warrant.

When new shaker slings are installed it is recommended to pre-soak the working surface of the rubber with **PAD & SHAKER PRETREAT** two or three times at 1-hour intervals prior to installation.
