DANGER

- FATAL OR TOXIC IF SWALLOWED
- RESPIRATORY TRACT IRRITANT
- MAY CAUSE SKIN IRRITATION OR BURN

CAUTION: Do not puncture or incinerate. Do not store in direct sunlight or where temperature may exceed 120°F. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Point away from body and eyes before spraying. Avoid prolonged exposure by inhalation. Do not ingest. If ingested, DO NOT induce vomiting. Drink large quantities of milk. See a physician. Avoid eye contact. If eyes are contacted, flush with water for 15 minutes. See a physician. Warning: This product contains a material(s) known to the State of California to cause cancer or reproductive toxicity. Consult Safety Data Sheet for additional information.

Ingredient Name	CAS#
*1,1,2,2 Tetrachloroethylene	127-18-4
Propellant	124-38-9

WARNING: This product can expose you to chemicals including Perchloroethylene, which is known to the State of California to cause cancer and/or cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Blending the Demands of Industry and Environment

CHILLS

DRILLING, TAPPING AND CUTTING, COOLANT MEDIUM

PERFORACIÓN, GRIFERÍA Y CORTE, REFRIGERANTE MEDIO

FEATURES:

- Keeps tools cool
- Extends tool life
- Clear for easy visibility
- Pin Stream tube allows for precise product placement

CAUTION: CONTENTS UNDER PRESSURE. VAPOR MAY BE HARMFUL. READ CAUTIONS ON BACK PANEL BEFORE USING.

KEEP OUT OF REACH OF CHILDREN

PRODUCT #1019

NET WEIGHT: 12 OZ

CHILLS

CHILLS is designed for the cooling of bits, blades, taps and dies in all mechanical applications. The blending of highly evaporative solvents create a chilling effect on the target work surface as well as the tool itself. Although **CHILLS** is not designed as a lubricant, its unique quenching capability keeps tools cooled, enabling greater tool life as well as inhibiting galling, binding and scoring. The result is a cleaner cut, with less effort and greater production. **CHILLS** is a clear compound, enabling excellent visibility in reference to the contact point of tool and surface. The pinpoint application of **CHILLS** enables continual flushing and removal of shavings with work in progress. Get hot, get **CHILLS**.

DIRECTIONS:

Always wear goggles or face shield when performing any cutting, drilling, boring or sawing function. Use in well-ventilated area. Apply **CHILLS** from a distance between 4 and 10 inches from contact point. Use only enough product to quench surface and keep cuttings away from contact point.

TO REORDER CALL US AT 800.648.1153

USE ON:

- Bits
- Blades
- Taps
- Dies
